CHECKLIST · BEFORE YOU SHARE

Dashboard design checklist

A dashboard works when each reader can answer their own question without help. Use this before you share one.

DASHBOARD | AUDIENCE | REVIEWED ON

01 Audience and purpose

☐	I can name who reads this and the decision it supports	Yes No N/A
☐	Each page answers one main question	Yes No N/A
☐	The most important number is top left	Yes No N/A

02 Layout

☐	No more than 4 to 6 visuals per page	Yes No N/A
☐	Filters are in the same place on every page	Yes No N/A
☐	Titles say what the chart shows, for example "Penta 3 coverage by month"	Yes No N/A

03 Charts

☐	Bars for comparing, lines for trends over time	Yes No N/A
☐	Bar charts start at zero	Yes No N/A
☐	No 3D charts and no more than one pie chart per page	Yes No N/A
☐	Colour is used to highlight, not to decorate	Yes No N/A

04 Numbers

☐	Units are shown: %, doses, facilities	Yes No N/A
☐	Totals match the source data exactly	Yes No N/A
☐	Targets or last period are shown for context	Yes No N/A

05 Trust

☐	The data source and last refresh date are on the page	Yes No N/A
☐	Definitions are one click away	Yes No N/A
☐	A colleague checked three numbers against the raw data	Yes No N/A

Free to use and adapt. Please keep this credit line. · alhajiimehemoh.github.io

06 Access			
☐	Text is readable on a laptop and a projector	Yes	No	N/A
☐	Works with colour blindness: do not rely on red versus green alone	Yes	No	N/A
☐	Only people who should see the data can open it	Yes	No	N/A

Tip. Show the draft to one real reader and watch them use it for two minutes without helping. Fix what confuses them.
