What I do

I turn field data into decisions for health programmes: mobile data collection, dashboards, data quality and M&E reporting.

Core services

- Survey123 and XLSForm data collection design
- Power BI and Excel dashboards
- Data quality reviews and indicator reporting
- Health data systems (PostgreSQL, Flask, Google Apps Script)
- Staff training in Excel and data skills
- Office IT, networks and cybersecurity basics

Recent work

- EPI reporting dashboard in Power BI
- Survey123 forms for hospitalisation notification and field tools
- CHW Card Studio, a card issuing tool
- An 11-module data management system for vaccine and programme data

Experience

- Evaluator and Data Officer, Rural Health Care Initiative (RHCI), Oct 2024 to present
- Assistant IT Manager, SLIEPA, 2023 to 2024
- IT and Data Officer, SLPP, Bo District, 2022 to 2023
- ICT Tutor, Growth Centre, Bo, 2016 to 2021

Working terms

Consulting, contract and full-time. Languages: English and Krio. Available onsite in Bo and remotely.
